

**Claims:**

1. (Cancelled).
2. (New) A method of enhancing activity of an active pharmaceutical substance upon administration to a subject in need thereof, said method comprising combining said active pharmaceutical substance with a homeopathically activated form of said substance.
3. (New) The method of claim 2, wherein said combining step is carried out prior to said administration.
4. (New) The method of claim 2, wherein the ratio of said homeopathically activated form to said active pharmaceutical substance is from 1:1 to 1:100.
